Matter No.: 20232116

Without admitting or denying the Findings of Fact and Conclusions of Law set forth below, except as to the jurisdiction of the Securities Commissioner over the Respondents and the subject matter of this proceeding, which are admitted, the Respondents, having been advised of their right to counsel, expressly consent to the entry of this Consent Order, which resolves the allegations against them set forth herein, and in the May 13, 2025, Order to Cease and Desist issued by the

Division (the “Cease and Desist Order”).¹ The Respondents elect to waive permanently any right to a hearing and appeal under S.C. Code Ann. § 35-1-609, with respect to this Consent Order.

II. JURISDICTION

1. The Securities Commissioner has jurisdiction over this matter pursuant to S.C. Code Ann. § 35-1-601(a).

III. RELEVANT PERIOD

2. Except as otherwise expressly stated, the conduct described herein occurred between January 1, 2023, and the present (the “Relevant Period”).

IV. RESPONDENTS

3. EEC is a Nevada corporation formed on April 17, 2003, with its principal place of business in Austin, Texas. EEC purports to be a tax-exempt, 501(c)(3) organization. EEC purports to be a “business” entity associated with The Legacy of the Angels (“LOTA”), an unincorporated spiritual organization of “Angels” dedicated to uplifting humanity and eliminating needless human suffering, and is controlled by LOTA’s board. Emerson describes himself as the “Chief Angel” and founder of LOTA.

4. Emerson is a resident of Texas and is the President and co-founder of EEC. Emerson describes himself as a “spiritual missionary” who teaches math and has developed an “educational product” called “Algebra Victory” or “AlgebraVictory.”

V. FINDINGS OF FACT

A. The Algebra Victory Offering

5. Algebra Victory is a product being developed by EEC that will allegedly assist students in learning math. The Respondents claim that Algebra Victory will unlock the hidden and

suppressed potential of millions of kids in America and around the world, generating huge returns for investors. Algebra Victory was supposed to launch in the fall of 2023 and include more than 500 videos of Emerson teaching.

6. To develop the Algebra Victory product, the Respondents began raising money by offering and selling investment units in EEC.

7. As early as January 2023, the Respondents offered investment units issued by EEC through a website accessible to the general public at algebravictory.com (the “Website”).²

8. The offering prospectus, titled “Algebra Victory Sacred Investment Prospectus” (the “Prospectus”) was made available on the Website by the Respondents on January 31, 2023.

9. Throughout the Relevant Period, the Respondents have made multiple revisions to the Prospectus, including a version posted on the Website on April 14, 2023 (the “4/14 Prospectus”).

10. The 4/14 Prospectus describes EEC as a patriotic, nonprofit, spiritual, educational, tax-exempt, 501(c)(3) organization seeking capital to develop the Algebra Victory product and sell it to a vast market, focusing initially on homeschoolers.

11. The 4/14 Prospectus solicits investments in EEC, the proceeds of which will be used to further promote Algebra Victory, hire staff to develop and operate Algebra Victory, and purchase equipment and office space.

12. The Respondents characterize their investment units as “Charms,” which are further subdivided into two classes, “Hearts” and “Stars.”

² The URL, algebravictory.com and algebravictory.org redirects visitors to legacyoftheangels.org On the legacyoftheangels.org website, Emerson claims that EEC is “under the umbrella” of Legacy of the Angels a/k/a LOTA, which he claims is “an unincorporated spiritual organization of Angels.”

13. In the 4/14 Prospectus, the Respondents describe Hearts as a tax-deductible donation. Returns from the investment, generated by sales of the Algebra Victory product, are paid as grants to the investor's nonprofit or a nonprofit designated by the investor. Returns from Stars are paid directly to the investor.

14. According to the 4/14 Prospectus, EEC's Charm system allows investors to receive cash returns, resembling dividends, but operates within the nonprofit sector.

15. The 4/14 Prospectus describes six levels of investment packages, ranging from \$990 to \$1,000,000, with a maximum aggregate investment from all packages up to \$5,000,000.

16. Investors choose an investment package and decide whether to receive their Charms as Hearts or Stars, and then receive the corresponding amount of Hearts or Stars depending on their level of investment.

17. Charms, regardless of their form, are designed to pay investors a return based on the success of the Respondents and the Algebra Victory product.

18. The 4/14 Prospectus even includes a section titled "*What will happen with the mountain of cash from AlgebraVictory?*" where the Respondents promise investors a portion of the "mountain of cash" that Algebra Victory will generate (over \$500 million annually, according to the 4/14 Prospectus).

19. By purchasing Charms, whether Hearts or Stars, investors are investing in a common enterprise with the expectation of profits to be derived from the efforts of the Respondents.

B. Misrepresentations & Omissions

20. Throughout the Relevant Period and in each published prospectus, the Respondents have made several material misrepresentations and omissions in relation to the Algebra Victory offering.

21. For example, the Respondents promise extraordinarily high returns, ranging from 2,093% on a \$990 investment, up to 3,242% on a \$1,000,000 investment.

22. The Respondents further claim that the “projected pre-offering current valuation of EEC is \$132,551,301,” a figure derived by the Respondents from their own valuation based on revenue growth projections of 3,259% from 2023-24, 288% from 2024-25, and 400% in both 2025-26 and 2026-27. The Respondents justify these projections by stating that “our projection of 2,000% (20x) returns is well within the norms of the startup space.” However, the Respondents fail to explain how the Algebra Victory offering was reasonably comparable to such investments.

23. The projections represented by the Respondents are based on unrealistic assumptions that have not been adequately explained. Specifically, the Respondents claim that the English-speaking homeschool sales market for Algebra Victory is \$505,000,000, based on 1,775,000 students, and that the “non-English market is huge.” Despite the “huge” non-English market potential, the Respondents, in the 4/14 Prospectus, recognized that they have “not yet attempted to quantify any of this expanded market potential (other than making rough guesses for 2026 and 2027 revenues in our financial projection, without the higher pricing).”

24. Even though attempts to quantify the non-English speaking market have not been made by the Respondents, the 2027 financial projection in the 4/14 Prospectus assumes 3,657,558 enrollments in Algebra Victory—more than double the size of the English-speaking market.

25. The Respondents provide no basis or support for the 3.6 million projected enrollments.

26. Without further explanation or justification, the financial and enrollment projections made by the Respondents in the 4/14 Prospectus are materially misleading.

C. Exemption Claims

27. In the 4/14 Prospectus, the Respondents claim that EEC's Charms are exempt from registration in South Carolina pursuant to S.C. Code Ann. § 35-1-201(7) because EEC is organized as a non-profit organization.

28. EEC did not provide evidence supporting its claim of exemption, nor did EEC provide any determination of nonprofit status from the Internal Revenue Service.

29. Respondents are not registered with the Division to offer or sell securities in South Carolina.

30. EEC's Charms securities have never been registered with the Division.

D. Other State Actions

31. Several other states have taken action against the Respondents for conduct related to the Algebra Victory offering, including Nevada, Vermont, North Dakota, Maine, and Washington.³
