INTRODUCTION

Thank you for your interest in seeking funding from the Department of Crime Victim Assistance Grants in the South Carolina Attorney General's Office. We encourage you to read through this document in its entirety as you prepare to apply for consideration. **All applicants must meet the eligibility requirements. Completed applications, including the required documents, should be submitted through our AGO grants portal no later than 5:00 p.m. on April 1, 2026. Late applications will not be accepted.**

OVERVIEW OF THE FUNDING

Victims of Crime Act (VOCA)

The federal Victims of Crime Act (VOCA) was signed into law on October 12, 1984. The purpose of the Act was to enhance and expand direct services to victims of crime. The Act established within the U.S. Treasury a separate account known as the Crime Victims Fund. The fund is not supported by tax dollars but rather is generated entirely by fines, penalty assessments, and forfeited bonds collected by the federal government. With the passage of the VOCA Fix Act in 2021, offender settlements with the United States Department of Justice (USDOJ) are also eligible for placement into the Crime Victims Fund. In South Carolina, the Department of Crime Victim Assistance Grants (DCVAG) within the Attorney General's Office is designated by the USDOJ, Office for Victims of Crime (OVC), as the State Administering Agency (SAA) for subawards issued with funds.

The primary purpose of VOCA is to support the provision of direct services to victims of violent crime. The program goal is to provide federal funding through grant awards to certified private non-profit organizations and public/government agencies for projects that will provide, enhance, improve, and expand direct services to victims of violent crime.

On August 8, 2016, OVC issued the VOCA Victim Assistance Program Final Rule (81 FR 44528) updating and outlining approved uses for VOCA funds. According to the 2016 VOCA Program Rule, direct services or services to victims of crime are defined as those efforts that (1) respond to the emotional, psychological, and physical needs of crime victims, (2) assist victims to stabilize their lives after victimization, (3) assist victims to understand and participate in the criminal justice system, or (4) restore a measure of safety and security for the victim. For the purpose of the VOCA crime victim assistance grant program, a crime victim or victim of crime is a person who has suffered physical, sexual, financial, or emotional harm as a result of the commission of a crime. **Funding cannot be used for the investigation of crimes or collection of evidence to further the prosecution of crimes.** A comparison between the Final Rule and the VOCA Victim Assistance Program Guidelines (62 FR 19607, Apr. 22, 1997) is available here <https://www.ovc.gov/pubs/comparison-VOCA-victim-assistance-guidelines-and-final-rule.pdf>.

The definition regarding victims is stated in the Omnibus Criminal Justice Improvement Act for serious and violent crime victims and in South Carolina victims of crime legislation (16-3-1506, et seq.).

Violence Against Women Act (VAWA)

DCVAG is the designated SAA for the Services, Training, Officers, and Prosecutors (STOP) Violence Against Women Formula Grant Program. VAWA was authorized originally under Title IV of the Violent Crime Control and Law Enforcement Act of 1994 and is reauthorized approximately every five years. Appropriations for VAWA are part of the USDOJ Office on Violence Against Women (OVW) budget and subject to approval by Congress.

The purpose of the STOP program is to enhance the capacity of local communities to develop and strengthen effective law enforcement and prosecution strategies and victim services in cases involving violent crimes against women. In South Carolina, the VAWA Program goal is to provide federal funding through competitive grant awards to certified private, non-profit organizations and public/governmental agencies for projects that will provide, enhance, improve, and expand prosecution, law enforcement, court, and direct services to victims of domestic and dating violence, sexual assault, and stalking who are over the age of eleven. Projects are encouraged to support male victims.

VAWA projects must develop and implement victim-centered, trauma-focused strategies that encourage collaboration among units of local government; non-profit victim service programs; state, local, and tribal courts (including juvenile courts); and Indian tribal governments. Critical partnering entities include law enforcement; prosecution; the judiciary; pretrial services; probation and parole; community-based organizations, including culturally-specific organizations; and others. Further, they must continue to solicit input during implementation to ensure that proposed activities are designed to promote the safety, confidentiality, and economic independence of victims of domestic violence, sexual assault, stalking, and dating violence.” (34 U.S.C. § 10446).

VAWA funds may not be used to support services that focus exclusively on children or to develop sexual assault or domestic violence curricula for K-12 schools. VAWA funds may be used for an adolescent program for primary victims over the age of 11.

The South Carolina VAWA State Implementation Plan is available upon request.

Applications for the VAWA Program must identify one or more of the following statutory (34 U.S.C. § 10446) purpose areas their project will address:

1. Training law enforcement officers, judges, other court personnel, and prosecutors to more effectively identify and respond to violent crimes against women, including the crimes of sexual assault, domestic violence, stalking, and dating violence, including the use of nonimmigrant status under subparagraphs (U) and (T) of section 101(a)(15) of the Immigration and Nationality Act (8 U.S.C. 1101(a));

Developing, installing, or expanding data collection and communication systems, including computerized systems, linking police, prosecutors, and courts or for the purpose of identifying, classifying, and tracking arrests, protection orders, violations of protection orders, prosecutions, and convictions for violent crimes against women, including the crimes of sexual assault, dating violence, stalking, and domestic violence;

Gonzales Victim Assistants shall have expertise in domestic violence, dating violence, sexual assault, or stalking and may undertake the following activities:

 - c. the development of such protocols in collaboration with state, tribal, territorial and local victim services providers and domestic violence coalitions.

Note: Any law enforcement, state, tribal, territorial, or local government agency receiving funding under the Crystal Judson Domestic Violence Protocol Program shall, on an annual basis, receive additional training on the topic of incidents of domestic violence committed by law enforcement personnel from domestic violence and sexual assault nonprofit organizations and, after a period of two years, provide a report of the adopted protocol to the Department, including a summary of progress in implementing such protocol. As such, states and territories are responsible for ensuring that each subrecipient receiving funds under this purpose area will receive the required annual training. States are also responsible for ensuring that subrecipients submit their two-year report to the Department. States and territories must notify and provide OVW with a list of subrecipient recipients awarded STOP funds under the Crystal Judson Domestic Violence Protocol Program.

State Victims Assistance Program (SVAP)

In 1986, the General Assembly of South Carolina passed the Omnibus Criminal Justice Improvements Act (§24-3-40 of the South Carolina Code of Laws). Pursuant to this Section, a

percentage of the wages earned by inmates participating in the South Carolina Department of Corrections' Work Release Program must be placed on deposit with the State Treasurer for credit to a special account to support victim assistance programs established pursuant to the Victims of Crime Act of 1984, Public Law 98-473, Title II, Chapter XIV, Section 1404.

Following amendments to state legislation, twenty percent of inmate's wages were garnished, and half of this was remitted back to the SC Department of Corrections (SCDC) for the support of the work release program. Proviso #89-157 of 2011 amended this amount to 5% of inmate work release wages and provided for the transfer of an additional \$20,500 per month to the SVAP account. This is in addition to the 5% allocated by statute. As of July 1, 2017 following the passage of Act 96, the South Carolina Crime Victim Services Act, funds are administered by the South Carolina Office of the Attorney General, Crime Victim Services Division, Department of Crime Victim Assistance Grants.

SVAP grant programs may be considered in the following categories:

1. Victims of Sexual Assault
2. Victims of Domestic Violence
3. Victims of Child Abuse and Neglect
4. Training Programs
5. Previously Underserved Victims of Crime

Supplemental Allocation for Victims Services (SAVS)

Recognizing that reductions in VOCA funding have resulted in many victim services agencies having to seek alternate funding, and frequently being unable to do so, in recent years, the South Carolina General Assembly has approved additional funds to aid qualified applicants in enhancing the victim services missions. The South Carolina Office of the Attorney General, Crime Victim Services Division, Department of Crime Victim Assistance Grants, is the administering agency for these funds, designated Supplemental Allocation for Victims Services (SAVS) funds, and a portion of this funding will be released as a supplement to existing victim services grant programs. The application process for SAVS funds is the same as that for VOCA, VAWA, and SVAP programs.

SAVS grant programs may be considered in the following categories:

1. Victims of Sexual Assault
2. Victims of Domestic Violence
3. Victims of Child Abuse and Neglect
4. Training Programs
5. Previously Underserved Victims of Crime

VOCA, VAWA, SVAP, and SAVS ELIGIBILITY REQUIREMENTS

Any certified private non-profit organization or public and/or government agency (local, county, or state) is eligible to apply for funding for an allowable project. Eligible organizations include victim services organizations whose primary mission is to provide services to crime victims. These organizations include, but are not limited to: sexual assault and rape treatment centers, child abuse programs, domestic violence programs and shelters, centers for missing children, mental health services, and other community-based victim coalitions and support organizations. Regional planning commissions or councils of governments and private for-profit centers are not eligible to apply for these funds.

Each organization must:

- Provide services directly to victims of crime and reflect the approximate number of victims to receive direct service in the grant application.
- Promote coordination of public and private efforts to assist crime victims in their service area.
- Demonstrate a record of providing effective direct services to crime victims, a history of providing direct services in a cost-effective manner, and having substantial financial support from non-federal sources. Agencies must be able to document that they have established a financial base level of non-federal support of at least 25 percent.
- Meet program Cost Sharing (Match) requirements.
- Meet non-supplanting requirement.
- Assist victims of crime in seeking crime victim compensation benefits.
- VOCA, SAVS, and SVAP projects must have at least one volunteer in order to be eligible for funding.
- Provide program information to the majority of agencies that assist with victims of crime in the agency's service delivery area.
- Maintain statutorily required civil rights statistics on victims served by race or national origin, sex, age, and disability within the grant period. Provide reasonable and time-limited access to documents, papers, and records to determine compliance with civil rights laws.
- Provide services to victims at no charge.
- Maintain confidentiality of client-counselor information.
- Provide statistical information to the DCVAG concerning staff, volunteers, and clients (no names).
- VAWA-funded prosecution offices: complete training and develop policies that support a victim-centered approach and implement a method that outlines alternative practices and procedures for material witness petitions and bench warrants that are exhausted before using material witness petitions and bench warrants to obtain victim-witness testimony in the investigation and prosecution of VAWA crimes.

FUNDING PRIORITIES

Applications are carefully reviewed to ensure that only projects with a significant likelihood of success are funded. Priority for funding is based upon the following factors:

- Project eligibility as determined by the priority program areas.
- Geographic areas of greatest need.
- Jurisdictions with limited resources.
- Interagency support and multi-jurisdictional cooperation between the applicant and other jurisdictions in the development and implementation of the project.
- Number of crime victims the proposed project would serve.
- Current or past grant performance. Projects that have been previously funded by the DCVAG will be reviewed for compliance, financial management, progress and annual reports, monitoring results, audit reports, and any other relevant documentation or information.

PROJECT CONTINUATION AND SUCCESS

After the first year of a project, the applying entity is eligible to apply for continuation funding, contingent on the following:

- Successful programmatic monitoring reports by the end of the funding year.
- Successful financial monitoring reports by the end of the funding year.
- Timely submission of requests for reimbursement.
- Timely submission of progress reports.
- Services have not been or cannot be continued with other funding sources (state or local).
- The level of effort, including volunteer hours, must not have been reduced.

COST SHARING/MATCH REQUIREMENTS

VOCA: 80 percent Grantor and 20 percent in-kind or cash cost share from non-federal sources.

- Tribal Organizations are exempt from the cost share requirement.

SVAP: 80 percent State and 20 percent in-kind or cash support from non-federal sources.

SAVS: 80 percent State and 20 percent in-kind or cash support from non-federal sources.

VAWA: 75 percent Federal and 25 percent in-kind or cash support from non-federal sources.

- Non-profit, non-governmental victim services programs and tribal organizations are exempt from the cost sharing requirement.

In-kind contributions represent a project's non-cash outlay. An example would be an in-kind contribution of volunteer hours. Cash cost sharing may be applied from local, state, public, or private funds that have a binding commitment to the project. Federal funds are not allowable as cost sharing. Once funds are committed, they cannot be used for sharing in other areas. All cost sharing on grants must be verifiable in program/agency records and provided for in the approved budget; not included as part of cost sharing on another project; must be necessary and reasonable for efficient accomplishment of project objectives; allowable costs; non-federal dollars; in compliance with all federal and state guidelines; and of an appropriate percentage. In other words, if the activity being proposed as cost sharing could not be directly funded as part of the application budget, it cannot be used as cost sharing.

Volunteer services used as in-kind cost sharing are allowable. VOCA projects must have at least one volunteer providing assistance to the project regardless of the kind of cost sharing used. Volunteer services may be professional or technical services, consultants, skilled, or unskilled labor assisting on the project. The rate is \$25 an hour for all direct or on-call service volunteer hours. The agency must maintain volunteer logs that contain individuals' volunteer hours and activities and are signed by both the volunteer and the person who supervises them. All individual volunteer logs must be maintained at the agency; only cumulative hours will be entered with each RFP in the AGO Grants Portal.

Note: Any agency found to be non-compliant with the documentation requirements for volunteer hours used as cost sharing (either failing to submit cumulative logs with requests for payment or failing to retain individual logs at their agencies) will be required to provide cash cost share.

If an agency chooses to cost share with other staff salaries, a Summary Statement of Personnel Service form must be submitted. The form is signed by staff and submitted with the agency's request for reimbursement stating the amount of salary/fringe contributed as cost share towards a project. Time records should be maintained and kept in the grant file for review.

ALLOWABLE EXPENSES/LINE ITEMS

The following is a listing of services, activities, and costs that are eligible for support with grant funds. Please note this list is not exhaustive. (See also Federal Guidelines - Appendix B):

- Those services that immediately respond to the emotional and physical needs (excluding medical care) of crime victims such as crisis intervention; accompaniment to hospitals for medical examinations; hotline counseling; emergency food, clothing, transportation, and shelter (including emergency short-term nursing home shelter for elder abuse victims for whom no other safe, short-term residence is available); specialized equipment that make services more accessible to victims with disabilities; emergency legal assistance; filing restraining orders and obtaining emergency custody/visitation rights when such actions are directly connected to family violence cases and are taken to ensure the health and safety of the victim; and other emergency services that are intended to restore the victim's sense of dignity and self-esteem.
- Those services and activities that assist the primary and secondary victims of crime in understanding the dynamics of victimization and in stabilizing their lives after a victimization such as counseling, group treatment, and therapy. "Therapy" refers to intensive professional psychological/psychiatric treatment for individuals, couples, and family members providing emotional support in crises arising from the occurrence of crime. This includes the evaluation of mental health needs, as well as the actual delivery of psychotherapy.
- Services that directly impact the needs of victims. These services may include: advocacy on behalf of crime victims; accompaniment to criminal justice offices and court; transportation to court; childcare to enable victims to attend court; notification of victims regarding trial dates, case disposition information, and parole consideration procedures; costs of respite care for a dependent adult when this enables the victim to attend court; and restitution advocacy and assistance with victim impact statements.
- Services that offer an immediate measure of safety to crime victims such as boarding-up broken windows and replacing or repairing locks.
- Forensic examinations for sexual assault victims only to the extent that other funding sources (such as State Crime Victim's Compensation, private insurance, or public benefits) are unavailable or insufficient.

- Translation expenses.
- Costs that are necessary and essential to providing direct services such as pro-rated cost of telephone service, transportation costs for victims to receive services, emergency transportation costs that enable a victim to participate in the criminal justice system, and local travel expenses for direct service providers. Rent must be at the prevailing and must not exceed 150 square feet per grant-funded position.
- Services that assist crime victims with managing practical problems created by the victimization by acting on behalf of the victim with other service providers, creditors, or employers; assisting the victim to recover property that was retained as evidence; and helping to apply for public assistance.
- Costs that are directly related to providing direct services through staff.
- Personnel, operating expenses, equipment, and supplies that are necessary to implement the project. All expenditures must be related to the direct implementation of the project.
- Personnel must dedicate 100 percent of their grant-funded time to grant activities.
- Audit fees can be included in the budget to cover costs associated with an audit of the project if the subrecipient agency receives an excess of \$1,000,000 in federal funds. However, only the prorated portion of the audit that applies to VOCA/VAWA funds can be used.
- Funds can be used to purchase materials such as books, training manuals, and videos for direct services providers within the organization.
- Presentations that are designed to identify crime victims and provide or refer them to needed services are allowable. Activities and costs related to such programs including presentation materials and brochures can be supported. Grant-funded personnel may dedicate only 10% of their time to this type of activity. (Not applicable to VAWA).
- Training is an allowable cost only in the context of direct service staff development and critically connected volunteer staff. Training programs must improve the skills of service providers in meeting the needs of crime victims. Applicants are encouraged to provide line items in their proposals for training opportunities. (Restrictions: No funding for out-of-state travel will be approved for reimbursement unless the travel is a required activity for meeting certification requirements and cannot be provided in South Carolina).
- Funds can be used to purchase memberships if the following criteria are met: (1) funds can only purchase organizational memberships for the service agency as opposed to individual membership for staff, (2) memberships must be purchased only in criminal justice and victims' organizations, and (3) subrecipients are limited to using funds to purchase no more than three memberships in national/state organizations per year.

- Volunteers may be charged as in-kind cost share at an hourly rate of \$25 an hour.
- Individual consultant fees are limited to \$81.25 per hour and require prior approval from Program and Financial Staff.
- Furniture purchases must comply with the Grant Terms and Conditions. Funds may be used for furniture and equipment that can be demonstrated as providing enhanced direct services to crime victims. Funds cannot support the entire cost of an item that is not used exclusively for victim-related activities. However, funds can support a pro-rated share of such an item.

SUPPLANTING

(Excluding Non-Profit Entities and Tribal Organizations)

Federal Grant funds may not be used to replace state or local funds (or where applicable, funds provided by the Bureau of Indian Affairs) that would, in the absence of federal aid, be available or forthcoming for programs to combat violence against women or provide direct services to victims of violent crime. Grant funds must be used to increase the total amount of other funds used. A grant recipient may not use federal grant funds to pay for programs that the recipient already has obligated.

SUSPENSION OR TERMINATION OF FUNDING

The State Administering Agency may suspend, in whole or in part, or terminate funding for, or impose another sanction on, a subrecipient for any of the following reasons:

- Failure to adhere to the requirements, standard conditions, or special conditions.
- Proposing or implementing substantial program changes to the extent that, if originally submitted, the application would not have been approved for funding.
- Failure to submit reports, financial or programmatic.
- Non-performance of grant-approved objectives in whole or in part.
- Filing a false certification in this application or other report or document.
- Other good cause shown.

PROJECT REVIEW REQUIREMENTS AND OVERVIEW

The following pages explain the standards by which each application is judged and items of importance during the review process:

- **Project Definition** - Any funds requested must be for the implementation of a new project or continuation of a successful existing project. The project must address the activities as identified on the grant.
- **Project Impact and Priority Areas** - The project should be designed to address the crime victim service problems and needs of the area to be served. An analysis of how this project could improve these problems should be shown.
- **Project Feasibility** - Applications should describe sufficiently and clearly how the project will be implemented.

- Interagency Collaboration - Priority will be given to projects demonstrating coordination and collaboration between the applicant and other associated agencies.
- Project Title - The project title must reflect the scope of the project concisely (Example: Volunteer Coordinator) and not the agency's name.
- Project Summary - Must include the names of counties to be served by the project.
- Design Quality of Proposal - The proposal is clearly written, supported by facts, and contains measurable objectives and performance indicators.

The following list includes some of the required parts of the application:

- Budget - Proposed expenditures are reasonable and adhere to the guidelines. Each expenditure must be explained in detail in its budget narrative and include an explanation of need as it pertains to this project.
- Interagency Coordination - Clearly outlines cooperation anticipated from other agencies or jurisdictions and why it will make the activity more successful and better serve crime victims.
- Problem Definition - Is clearly defined and based upon facts, a needs assessment, and/or statistics.
- Project Description - Tells the reviewer exactly what the project plans to do. Outlines that the project has been well-planned, has a good likelihood of success, and lists which counties, areas, or populations to be served.
- Project Performance: Objectives and Indicators. Objectives should be relevant, specific, and measurable. They should specify what the program will accomplish in concrete terms, i.e., who will do what by when. Each objective should have a corresponding performance indicator that is the numerical measure of its success. Each application should include three to five objectives.
- Sources of Income – Applicants must document current and projected income for the agency. Strong applicants should be able to demonstrate that at least 25% of funding is from nonfederal sources.

VAWA-Specific Definitions

Child/Children - Any person under the age of 11 years. VAWA Program funds cannot be used for grant programs exclusively designed for, or focused on, services or projects for children. Grant money may be used for children's needs only if the primary objective of the grant program is to meet the needs of female adult victims. For example, in a domestic violence shelter, the shelter may use money to meet the needs of children of women who are being served.

Crime Victim - For the purposes of the VAWA Program, a crime victim is a person, 11 years or older, who has suffered physical, sexual, or emotional harm as a result of the commission of a crime of domestic violence, sexual assault, stalking, or dating violence. Secondary victims of crime include family members or other intimately connected persons. If the project is written specifically for female victims, the Office on Violence Against Women allows and encourages provision of services to similarly situated male victims.

Direct Services - Efforts that respond directly to the needs and well-being of crime victims; assist primary and secondary victims of crime in stabilizing their lives after a victimization; help victims understand and participate in the criminal justice system; and provide victims of crime with a measure of safety.

Domestic Violence - The term "domestic violence" includes felony or misdemeanor crimes of violence committed by a current or former spouse of the victim; by a person with whom the victim shares a child in common; by a person who is cohabiting with, or has cohabited with, the victim as a spouse; by a person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction receiving grant monies; or by another adult person against a victim who is protected from that person's acts under the domestic or family violence laws of the jurisdiction receiving grant monies. For the purposes of this program, "domestic violence" also includes any crime of violence considered to be an act of domestic violence according to South Carolina state law.

Sexual Assault - The term "sexual assault" means any conduct proscribed by Chapter 109A of Title 18, United States Code, whether the conduct occurs in the special maritime and territorial jurisdiction of the United States or in a federal prison and includes both assaults committed by offenders who are strangers to the victim and assaults committed by offenders who are known or related by blood or marriage to the victim.

Law Enforcement - The term "law enforcement" means a public agency charged with policing functions, including any of its component bureaus (such as governmental victim services programs).

Prosecution - The term "prosecution" means any public office or agency charged with direct responsibility for prosecuting criminal offenders, including such office or agency component departments or bureaus (such as governmental victims services programs i.e. Solicitor's offices). Prosecution support services, such as overseeing or participating in statewide or multi-jurisdictional domestic violence task forces, conducting training for state and local prosecutors; or enforcing victim compensation and domestic violence related restraining orders and orders of protection shall be considered "direct responsibility" for purposes of this program.

Victim Services - VAWA defines a victim services program as "a non-profit, non-governmental organization that assists domestic violence, dating violence, sexual assault, or stalking victims, including rape crisis centers, domestic violence shelters, faith-based organizations, and other organizations with a documented history of effective work concerning domestic violence, dating violence, sexual assault, or stalking."
