

My World and Internet Safety

Every time we go on the Internet
the world can come into our homes,
so we need to be careful.

In our family:

- We lock doors.
- We wear helmets.
- We buckle up.
- We visit the doctor.
- We don't talk to strangers.
- We keep telling each other
about what we see and do
on the Internet.

Parents: *The most fundamental part of Internet safety is to establish regular, open communication with children about what they see and do on the Internet.*

Go *through* the check list above, and explain:

We already do many things to keep our family safe. We're going to talk about what we do to keep our family safe on the Internet.

Ask some questions:

- What are your favorite things to do on the Internet?
- What things might be scary about the Internet?
- Why is Internet safety important for our family?

Explain that you plan to have many conversations together about this important part of our lives.
